Attiro®

Innovation by Kingspan

Magnetically beautiful. Reassuringly practical.

Provides solutions to
previous limitations
on design and
accessibility

Uncover and gain
access to any part of
the services void in
under one minute

Works hand in hand
with any Kingspan
steel encapsulated
raised flooring system

Efficient fitting,
reducing damage,
waste, and
lead times

Durable, easy to
maintain and can
be walked on
immediately after
installation

Style and function uncompromised.

Protective edge band

The beauty of an Attiro floor isn't only in its looks, but in its elegant design. Because Attiro uses a magnetic base to secure to the steel encapsulated raised floor panels, it makes accessing underfloor voids effortless.

Attiro has all the beauty of engineered oak and all the ease of access flooring. Moving on from the conventional bonded square systems of the past, with Attiro you never have to compromise on style or function again.

Attiro can be installed at fit-out stage, prior to testing and commissioning to reduce waste and lead times during construction. It works hand in hand with Kingspan's steel

encapsulated raised access floor panels.

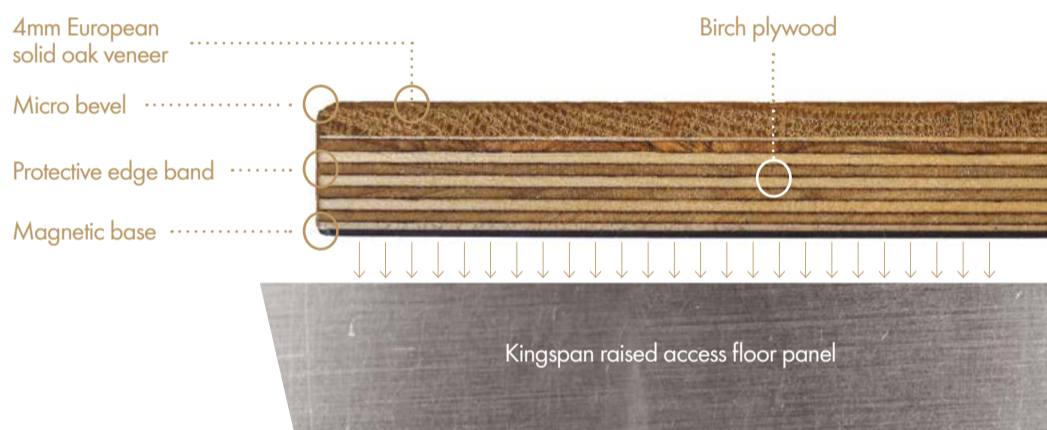

Simply lift the magnetic, European oak-veneered Attiro to access and reveal the raised floor panels and void underneath. In comparison to inaccessible tongue and groove wood flooring, using the Attiro lifting device you can simply lift up any part of the floor within seconds.

We deliver and install Attiro pre-finished, so you can walk on it as soon as it's laid. And thanks to its pioneering magnetic base, it's quick and easy to remove if you ever needed to repair or replace an individual stave.

Cable tray in underfloor service void

Dimensions available

Standard width: 160, 180, & 200mm.
Lengths from: 1200mm - 2200mm.
 All Attiro is 16.5mm in depth.

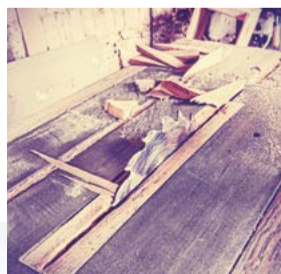

A lesson in versatility

Attiro comes in a range of shades and finishes to suit any taste and interior - from deep, rich grains to crisp, clean whites. Brushed finish as standard with alternative sawmill and rustic hand scraped finishes. Lacquer options include wax oil or UV cured lacquer.

innovating

Italian craftsmanship meets British innovation

Quality, luxury, prestige: the hallmarks of Italian craftsmanship. We've taken these time-honoured traditions and fused them with ground breaking British engineering to create something new & inspirational.

Attiro is the result of impeccable attention to detail. Everything that goes into its creation is carefully hand-picked. From the prime grade European sustainable lumber we source to the master craftsmen who perfect it.
